COMPANY PROFILE

YOUR TRUSTED ONE-STOP INDUSTRIAL METAL RECYCLING SPECIALIST

INTRODUCTION
INDUSTRIAL WASTE

There are many causes of Industrial waste with today's fast-growing technologies and sciences to meet consumers' ever-changing demands. Wastes generated by manufacturing or various industrial processes are known as industrial wastes. Although industries have proved to be very helpful to our society, it has various drawbacks, and one of the most important ones is pollution caused by Industrial waste! The waste produced by the factories, mills, and mining operations to name a few and has been rendered useless. Some industrial wastes may be toxic and hazardous hence, we need proper management at their disposal.

At Liang Metal Enterprise, we specialize in industrial metal recycling for countless companies. Whether you need to dispose of unused materials or industrial materials, you need comprehensive industrial waste management and customized solutions, we have you covered. We make the most industrial activity manufacturing and recycling metals to maximize waste streams and internal resources to benefit the environment, economy, and society.

ABOUT US

Liang Metal Enterprise (LME) was established in 2014 and is acknowledged as one of the fastest-growing and leading recycling companies in Ipoh, Perak, Malaysia. LME was founded by **Mr. Tee Che Liang** after working for more than 20 years with his father in the recycling industry and decided to begin his own entrepreneurial journey. To date, Mr. Tee has gained valuable in-depth knowledge and experience to provide comprehensive scrap and waste management services, ensuring services from collection and disposal of waste or scrap to recycling and generation of renewable energy. We ensure all discarded scrap or waste is efficiently managed, disposed and recycled.

LME's core business includes buying and selling various kinds of scrap metal such as aluminium, steel, copper, stainless steel, brass, iron, sheet piles, cutting plates, rebar, machinery, zinc, nickel, titanium, tungsten and etc. We covered from site inspection to transportation, demolition, disposal, and clearing for buildings and heavy industries. With decades of knowledge and experience, we have a strong dedicated team of experienced and knowledgeable workers who provide customized solutions to our client's environmental concerns. With our own vehicles, machineries, and equipment we complete our job promptly and professionally for Ferrous and Non-Ferrous scrap metal of all grades and of all sizes.

LME take pride in delivering 100% customer satisfaction with exceptional services which is incomparable and therefore contributing to its rapidly growing reputation. The company excels in every aspect of the scrap recycling business and scrap metals trading. With a strong network of partners, we can assure every scrap metals trade with the best services and competitive pricing.

Our Vision
